Dear Supt. Zapanta,

If you remember, I came to you last year to seek your support to my family's advocacy which you so generously and wholeheartedly supported. For the third year now, a free basketball clinic will be offered once again by the Corales family of Tagbilaran City in honor of the family's patriarch, Mar, who died on May 1, 2015. Last year, around 100 children of poor and less fortunate families in Tagbilaran City availed of the clinic under the tutelage of competent basketball coaches led by Mr. Peter Naron, a retired PBA player.

This project is intended to help children who are interested to improve their playing skills through a formal training without having to pay in order to make them competitive if they aspire to get a scholarship in order to advance their education. Last year's clinic proved helpful in honing the playing skills of the kids that the Corales family has decided to continue with the same clinic this year for five (5) consecutive weekends starting June 30 until the last weekend of July. This is an opportunity for the kids who otherwise may not be able to undergo the same clinic if it were not free since it could cost their family a lot of money. With enough training, they could become competitive and could easily obtain a scholarship that will provide them a degree in order to pull them and their families out of poverty. Mar Corales earned a law degree from Divine Word College (now Holy Name University) by being a basketball scholar..

I have decided to offer the free clinic this time to the students in senior high so that they won't have to wait long before they get to college and use their skills to get a college scholarship. You can get somebody to earn a degree. Help me find deserving students from each of your schools get a good training in basketball. Please find me deserving students aged 12 to 18 to the clinic which will be held starting Saturday, June 30, 2018 at the Bohol Institute of Technology (BIT) gym along Gallares St., here in Tagbilaran City. We can schedule a meeting with prospects before the start of the clinic for a short orientation.

Please accept my advance thanks for your cooperation. Your move in this regard will certainly make a huge difference in the children's and their family's lives.,

Most sincerely,
