Dear Maam;

Greetings!

The result of the latest Young Adult Fertility and Sexuality Survey (YAFSS) shows a worsening trend in sexual risk behavior among young people aged 15-24 years old. A very alarming fact is the increased prevalence of unprotected premarital sexual activity which may result to teenage pregnancy and STI including HIV and AIDS. Further, there is a very high increase in the incidence of PMS among females compared to males which is likely a major contributor to the sharp increase in teenage fertility.

Another report on Adolescent Sexual and Reproductive Health situation by the National Youth Commission highlighted that a high percentage (81%) of the young people believes that information should be made available to the adolescents to reduce risky behavior and unhealthy practices. This activity aims to identify the common issues and concerns confronting the young people in the Philippines and even in our Province/City and to know their priorities in life.

With this, we would like to invite 2 students from Dr.CecilioPutong National High School, Mansasa High School, Cogon Night School, Manga National High School, and San Isidro National High School (1 male and 1 female), ages 16-18 years old, and a resident of Tagbilaran City to attend the 3-day Seminar on Adolescent Health and Development Program. This activity will be on July 13,14 and 15, 2018 (Live-in activity) at JJS Seafood Village KofC Drive, Poblacion II, Tagbilaran City. This activity will start at 8:30 in the morning.

Hoping for your kind consideration in this matter. Should you have any concerns, please free to contact me at 09074879845 or our Youth Advocate Mr. Paulo Antonio K. Sarabia at 09202244400.

Hoping for your kind consideration in this matter.

Respectfully yours,
