Dear Dr. Zapanta:

Warm Greetings!

World Population Day is July 11- a great time to raise your voice about one of the most critical issue facing our society today. Initiated by the United Nations in 1987, when the global human population was just 5 billion, the day is designed to create awareness about the impact of population growth on people and the environment. For 30 years the 11th of July has been an occasion to mark the significance of population trends and related issues. In 2016, the city of Tagbilaran has 242 teenage pregnancies and increased to 453 in the year 2017. It remains a significant problem that affected the development of the city.

In celebration of the World Population Day 2018 with the theme "Family Planning is a Human Right" the City Health Office of Tagbilaran in collaboration with the commission on Population will hold a Heart Talk and Film Showing to the High School Night Students of Cogon High School on July 10, 2018 at the Cogon Elementary School Audio Hall. This activity will tackle sexuality-related issues which are very necessary to get solved among youths especially between 13 to 19 years of age.

We look forward to your positive response to this activity. We hope you too are looking forward for this exciting opportunity. Should you have any clarification, please do not hesitate to call Mrs. Leonita R. Relamida our City Population Officer/Designate at 09074879485.

Thank you for your unwavering support to the young people and to our youth program.

God Bless....

Sincerely Yours,

DR. JEIA N. PONDOC
