OIC Superintendent
-Office of Tagbilaran-

Re: Support of Philippine students

Mr. Dr. Neri Ojastro ,

Before my explanation of subject above I will just briefly introduce myself .

I am German and live in the Philippines with an investor visa for good since 9 years .

During this time I built an ambitious vision to support Philippine youth .

I read in American science magazine , that Philippine students belong to 10 th intelligent young people worldwide .

The reason for this fact is very simply interpreted – the current students , 20-25 years old , mostly didn't grew up with TV, internet and technical toys as cellphones . Contrary did they learn refine their natural skills by playing in nature .

Body and mind could be developed in the way as planned by nature or God .

I avoid to enumerate the sins which are made with kids especial in industrial countries , the "modern world".

Since around 7-8 years I studied the education field by reading books and participating web- and life seminars only from best world famous experts of education , neurology , psychology with also practical exercises .

Basically is my long term goal to offer this knowledge to students by internet webinars and courses .

After 9 years living here I made a lot of experiences by private talks with pupils on school yards , Giving classes , lectures , seminars in high schools as well in universities .

I wish more personal contact to the youth to hear, see, learn their wishes and needs. Also is it very important for me to have contact and to learn more from teachers about Philippine school system .

I am member of Kiwanis Club of Tagbilaran and we had the idea to create this project also to find support from media .

I made a proposal for ideas to hold such a seminar . I hand over this to Mrs. Janet T. Butalid during my visit at your office today morning .

I am on the way to apply an association to start total legally my goal .

The name of this association is : I - N - A - T Power Champion Academy .

I - is abbreviation for integrity

N - is - " - nature

A - is - " - authenticity

T - is. - " - thanks

These attitudes are the spiritual and physical basics for a life in wealth as above mentioned experts found out .

The results of those studies are partly only 5 years old , means these studies are even not yet know at universities in USA . Additional they are blocked from industries and special types of world leaders not to damage their productive business concepts .

I would like – without charge – bring this newest learning enlightenments to my new homeland.

I am kindly asking for a legal permit from you .

If you have further question feel free to contact me .

Please ask for the program at office from Mrs. Dr. Janet T. Butalid .

With friendly regards

Dr. Armin Koglin
