MEMORANDUM

To : Public and Private Elementary and Secondary School Heads, Administrators
All Others Concerned

From : **NERI C. OJASTRO EdD, CESE**
Asst. Schools Division Superintendent
OIC, Office of the Schools Division Superintendent

Subject : **CLIMATE CHANGE PROGRAM**

Date : April 29, 2019

Enclosed is DepEd RO7 Advisory No. 081 s. 2019 dated April 26, 2019 disseminating the communication from the Pivot Edutainment inviting public and private schools in our Region to their Climate Change Program.

For details, kindly refer to the attached advisory.

For the information of all interested and concerned parties.

NERI C. OJASTRO EdD, CESE
Asst. Schools Division Superintendent
OIC, Office of the School Division Superintendent 

DepEd RO7 Advisory No. 081 s. 2019
April 26, 2019

(In compliance with DepEd Order No. 8, s. 2013, this advisory is issued for the information of DepEd officials, personnel/staff, as well as the concerned public.)

CLIMATE CHANGE PROGRAM

1. This Office is hereby disseminating the communication from the Pivot Edutainment inviting public and private schools in our Region to their *Climate Change Program*.
2. The program aims to engage all the people in our battle against climate change, regardless of their roles in society they belong to.
3. For details, refer to the attached communication from Cherrymae V. Sta. Ana, Pivot Edutainment Marketing Manager.
4. Participation of both public and private schools shall be subject to the *no-disruption-of-classes policy* stipulated in DepEd Order No. 9, s. 2005 entitled *Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*.
5. For the information of all interested and concerned parties.

JULIET A. JERUTA
Superintendent
DepEd – REGION VII

SUBJECT: Request for an Advisory of the program Climate Change: Understanding, Reducing, and Adapting in all public and private schools in Region VII for Academic Year 2019-2020

Dear Ma'am:

Being one of the most pressing issues of the 21st century, different initiatives around the globe are being launched with regard to educating the people of the occurring climate change phenomenon and its possible threats to the whole ecosystem. However, despite all these initiatives, people tend to take the issue for granted, thinking that it would require them serious and tremendous efforts to be part of saving the environment.

In this connection, Pivot Edutainment would like to introduce its program, Climate Change: Understanding, Reducing, and Adapting to you and to your humble office. This program aims to engage all the people in our battle against climate change, regardless of their roles in the society they belong to. This program basically explains the complexities and interconnection of the various challenges posed by the said phenomenon.

Also, this program is designed to reach and involve as much as to entertain. We present new and relevant knowledge in a powerful and captivating medium which inspire thoughtful and lively learning experience.

Given the nature of our business, we recognize and respect the fact that we are bound by all of the memoranda and laws that are issued and implemented by Department of Education (DepEd). In this regard, we would like to discuss some of the memorandums and laws that are currently in place, and how we plan to work within the given boundaries and restrictions.

In line with **DepEd Memorandum No. 47, s. 2017** which is entitled **Moratorium on DepEd educational field trips and activities outside of the school premises**, we at Pivot Edutainment commits to offering fun and educational activities right in the comforts of the school grounds to ensure the security and safety of all the students.

With regard to the **"Time on Task"** Policy and the **"180 days teaching and learning guidelines"**, we will be working closely with the Science Department of the school/s to make sure that our activities, which are all science-related, will only take up the time for their science period. Thus, ensuring that there will be no disruption of classes.

Being aware of the **Ganzon Law** which prohibits the selling of tickets by teachers, the selling and collection for our tickets will be through the Parent-Teacher Association of the school/s. Also, this activity will not be compulsory to the students.

In lieu with this, we would like to request for an advisory from your good office to conduct these voluntary and non-compulsory activities in all public and private schools in Region VII for the Academic Year 2019-2020. Rest assured that we will work closely with your office, in accordance to its vision and mission.

We will be looking forward to your positive response regarding the matter.

Thank you and more power.

Respectfully yours,

CHERRYMAE V. STA. ANA
Marketing Manager

Climate Change

ACTIVITY 1 DIGITAL DOME THEATER

Inside our digital dome theater (7m x 5m), we will be featuring a 30-minute film entitled *Climate Change: What Future Are We Facing* in 360-degree format while one of our lecturers give an overview on what climate change really is. This discussion attempts to give a basic understanding on the causes and effects of this pressing phenomenon so the viewers could also act and respond accordingly.

ACTIVITY 2 3D FILM SHOWING

3D

This activity aims to feature the negative effects of climate change to our ecosystem. We are offering two different films, depending on the age and interests of our viewers. For the younger audience, we have *Forest Hero: Coni*, a 25-minute animation about a bee saving the environment and their community as well.

For an older audience, *Under the Sea* is a film about the effects of climate change to the underwater ecosystem, particularly the effect of ocean acidification.

ACTIVITY 3 INTERACTIVE EXHIBIT ON RENEWABLE RESOURCES

In this activity, Pivot Edutainment introduces different renewable sources of energy such as bicycle generator, hand crank generator, solar panel, wind turbine, and many others which are just some of the many things that could be used to lessen the aggravating effects of climate change. We also have other attractions such as our augmented reality boards, plasma ball, snow machine, and many others.
