March 10, 2019

Dear Sir. / Madam:

Subject: 2019 STEM Education and Research Training Programs

Greetings of Peace!

The STEM Education Hub is one of the leading institutions that promote literacy programs in science, technology, engineering and mathematics (STEM). It aims to produce a society filled with citizens that are critical thinkers and problem solvers. Our initiatives involve STEM-related training programs for students and teachers which include robotics, science and math content, research and international publications, and other programs that promote scientific literacy. In less than two years, we have already trained more than 3,000 teachers and students nationwide, assisted in numerous international research publications and provided consultancy programs for the schools nationwide and abroad.

In this regard, we would like to invite your institution to be our partner in promoting STEM-literacy programs through various projects and teaching and learning pedagogy initiatives. Your assistance in reaching out students and teachers in the field is such a great help. We have partnered with both local and international organizations to assist us in ensuring quality program management. Our team is composed of Curriculum Specialists, Scientists, Engineers and Educators with international background in STEM program management and implementations.

We sincerely invite your institution in joining us in this wonderful endeavour for the benefit of the students and educators nationwide.

Thank you very much!

Sincerely,

JOSEPH R. JACOB, LPT, MBA, MAEd, FRIEDr
Director, The STEM Hub
