MEMORANDUM

TO : SCHOOLS DIVISION SUPERINTENDENTS *cmam/m*

SUBJECT : ABS-CBN ECO PATROL ACTIVITY

DATE : July 4, 2019

X=====/
As part of the celebration of the 31st year anniversary of the ABS-CBN TV Patrol Central Visayas, an ECO PATROL competition is organized to help advocate the protection of the environment.

In view of this, the schools and high school students under your area of jurisdiction are encouraged to participate in the annual recycling contest with the goal to create innovative and useful products out from recycled materials.

The display and announcement of winners will be on August 29, 2019 at the ABS-CBN Cebu lobby, Jagobiao, Mandaue City. Participants and coaches are also encouraged to be at the venue starting 3:00 p.m. on the same date.

Attached is the mechanics of the competition, for reference.

You may also contact Mr. Jaworski Alipon, Eco Patrol Coordinator at cellphone number 0917-8477824.

ECO PATROL IN A NUTSHELL:

Eco Patrol is a segment of ABS-CBN's Cebuano newscast TV PATROL CENTRAL VISAYAS (TVPCV). It underscores the value of protecting the environment in a world where Climate Change has taken toll to the environmental impact of calamities that hit the country.

It is an advocacy of the ECO PATROL to also scout for pupils/students who are aware of their responsibilities as stewards of God's creations, at an early stage of their lives. Annually, TVPCV organize the ECO PATROL competition, inviting various schools to participate and produce outputs which are useful to the community and beneficial to the environment. They maximize recycled materials to create functional products which can be used in many specific ways. These schools send their representatives, together with their coaches, to submit their products for the final display and judging.

It is our hope that these products may be recognized as a prototype of future research with commercial viability.

MECHANICS:

- Every school is entitled to send a team of 3 members.
- Every team must have a coach to guide the students.
- Materials to be used must be eco-friendly.
- Every entry must have a caption (computer encoded) of the following content:
 1. Name of School
 2. Members of the team
 3. Name of the project
 4. Materials used (why Eco-friendly?)
 5. Procedure
 6. Brief explanation of it can be useful and beneficial to the environment
- Only one entry per school (Please indicate if the output is considered as a set which can be taken as a single entry.
- The decision of the judges are final and irrevocable

CRITERIA FOR JUDGING:

RESOURCEFULNESS 40%

(Combination of Materials, Procedure)

USEFULNESS 40%

(How does it affect me and the environment?)

IMPACT 20%

(Total look, neatness, creativity)
