Engine tuning... *Start Up to the New Normal.*

For 2020, Pandemic takes over our life, we were devoured by the New Normal and find it hard to get back into the track. Thus, Start Up helps us to stand and to begin the new track this situation created. Start Up helps us to be accustomed with the virtual platform.

Rationale of the Event

After an onslaught of COVID -19, the paradigm of the "New Normal" has emerged in all sectors of the society. Citizens around the globe will have to transition to the current conventional way of doing life as the country begins to continue its normal grind.

As far as possible, they can deliberately exercise physical distancing to avoid busy areas. A modern protocol in offices would likely be witnessed by the working force, with regular hand washing part of the new procedure, with security guards or delegated workers monitoring their temperature before accessing their building or office premises. For travelers and law enforcers alike, restricting the number of passengers on trains, jeepneys and buses would become a problem. With these, people tend to be isolated and creates a distance in everything, most special socialization that will result to many negative endeavors. The START UP wants to bring new hope to the people experience difficulty and burden. Thus, this event was created to give solution to the existing tribulations that the Pandemic has brought us.

About the Event

Start Up is a 4 day event that cater different theme per day. Studies and researches were conducted to formulate great event that will surely tackle the need of the Filipino youth.

- Riding the K-WAVE that will captivates the hook of our young generations, but this time will not munch up with the drama but we will discover greater values that is hidden in it.
 - Entering the Virtual Sandbox Enterprise that promotes happy and dynamic activities that will surely ease the boredom and isolation brought by the Pandemic
