Dear Dr. Sarmiento:

Greetings!

We are pleased to know that the National Research Council of the Philippines (NRCP) is taking an initiative to conduct a study entitled "***Bridging the Gap on Remote Teaching and Learning***" that aims to better understand the existing condition, coping mechanisms and challenges that our teachers are facing in line with the remote teaching and learning delivery under the "new normal" condition of the country.

Recognizing the merit of the said research, the Department is allowing the NRCP to conduct data collection to teachers by strictly observing the confidentiality and ethical rules of research. This Office also requests to be informed on the findings of this study that will greatly help to supplement and complement current undertaking/ policy initiatives of the Department along this area.

Thank you and God bless.

Very truly yours,

DIOSDADO M. SAN ANTONIO

Undersecretary
