Schools Division Superintendent
Office of the Schools Division Superintendent

SUBJECT : **SECTORAL ORIENTATION ON WDM FOR REPRESENTATIVES
FROM UNIVERSITIES, SCHOOLS, TWSDA, NON-GOVERNMENT
ORGANIZATIONS, PEOPLE'S ORGANIZATION, CBOs AND WATER
SECURITY COUNCIL**

DATE : **June 9, 2021**

1. Attached herewith is a letter of invitation from United States Agency for International Development (USAID) through the Strengthening Urban Resilience for Growth with Equity (SURGE) Project assists local governments in strengthening the technical and institutional capacity of water service providers and sanitation. One focus area of USAID/SURGE's assistance is the Water Demand Management (WDM), a strategy used to close the gap between available supply and the increasing water demand.
2. Participants are requested to attend the webinar on June 11, 2021, Friday at 9:00AM thru zoom registration link: <https://surge-org-ph.zoom.us/meeting/register/tZUld-uvqD4uEtceP2huOz4xOQVS7arbikfg>.
3. For information and guidance, please read attached letter.
4. Immediate and wide dissemination of this Memorandum is highly expected.

DATE: 6/8/21 CTR #: 1-68

Dear Dr. Lagura:

The United States Agency for International Development (USAID) through the Strengthening Urban Resilience for Growth with Equity (SURGE) Project assists local governments in strengthening the technical and institutional capacity of water service providers on water and sanitation. One focus area of USAID/SURGE's assistance is the Water Demand Management (WDM), a strategy used to close the gap between available supply and the increasing water demand.

As part of our ongoing assistance, USAID/SURGE will be hosting a webinar entitled "Sectoral Orientation on WDM for representatives from Universities, Schools, TWSDA, Non-Government Organizations, People's Organization, CBOs and Water Security Council" on June 11, 2021, Friday at 9:00 in the morning via Zoom. The objectives of this webinar are: (1) Conduct a series of orientation sessions on various aspects of WDM to inform specific sector groups on how they can participate in the city-wide implementation of the WDM program; and (2) Inform stakeholders on what measures are needed (such as resources, policies, incentives, penalty system, promotions, etc.) to support the actions to be identified to each sector after the session. Through the webinar, the participants will be guided in preparing strategies and activities using appropriate planning framework to kick-off WDM programs.

In line with this, we are inviting you and at least 5 principals from the different schools in Tagbilaran. The participants can be at their workplace or at home during the webinar. In compliance with health protocols and guidelines, we reiterate the need to practice physical distancing and proper wearing of face mask and face shield should they be in the workplace or in any public area during the session. Attached is the tentative program for your reference. The Zoom registration link will be provided to you through a separate email.

Should you have queries, please contact Engr. Myraflor Fumar, USAID/SURGE Tagbilaran City Project Engineer at 0917-634-9116 or through her email address: mfumar@surge.org.ph. We look forward to your participation to this activity and we thank you for your continued collaboration.

Sincerely yours,

Rosalinda G. Paredes
