DIVISION MEMORANDUM
No. *043*, s. 2022

**INVITATION TO P.O.W.E.R.-IST QUARTER PHIL ATOMIC CONFERENCE IN
MARCH 2022**

To: Chief, CID and SGOD
Elementary and Secondary School Heads
Teaching and Non-Teaching Personnel
All Others Concerned

1. This Office received a communication from Dr. Liberty I. Nolasco of Governometrics, dated February 17, 2022, titled **“INVITATION TO P.O.W.E.R.-IST QUARTER PHIL ATOMIC CONFERENCE IN MARCH 2022”**, inviting all interested professionals to a webinar. This webinar would be conducted on March 21-25, 2022, via Zoom.
2. Participation of interested personnel to this activity is subject to the provisions of DECS Order No. 28, s. 2001 titled **“Prohibiting the Commercialization of DECS organization through Endorsements and Accreditation of Goods and Services”**, and DepEd Order No. 9, s. 2005 titled **“Instituting Measures to Increase Engaged Time-On-Task”** and all other existing DepEd policies, regulations, and ensuring compliance therewith.
3. Involvement to this activity is **optional**.
4. Please refer to the attached communication for more details.
5. Immediate dissemination of this Memorandum is desired.

PHILIPPINES

2-17-22

Dear Superintendent LAGURA

A pleasant day!

Governometrics Management Consultancy Services or Governometrics as your most dynamic consulting partner for Capability, Quality, Transformation and Significance is soon completing the celebration and observance of its 1st Foundation Term this February 2022. We would like to thank your office for taking time to read our service offerings, answering us, and/or taking part in our services from 2021 to date.

Governometrics is a business founded on strict ethical protocols and standards of research that has developmental content. It was founded in the Philippines by the undersigned but it also has a global or international outlook. In its 1st year of operations, Governometrics is honored and proud to have attained global audience to its service programs, attended by C-suite executives, middle managers, regular staff (educators mostly), researchers, graduate students, undergraduate

students, and even unemployed individuals. It is also able to jointly launch activities with noted intellectuals in the country from business, education, public and advocacy sectors.

We passionately disseminate service programs of Governometrics for the uniqueness of its perspective, methods and content oriented toward strengthening of policy level decision making, executive leadership, managerial capability, operations strategy, and research leadership of its clientele and supported communities. Governometrics is a homegrown knowledge base formulated and tested for two decades now by the undersigned.

As a business entity, in its launch year in 2021, Governometrics takes pride in sharing of being the first and so far the lone exponent of cross disciplinary research in the country as well as of the combined aims of thought leadership and futures thinking with global service programs for adults and the youth. Governometrics was also among the few entities in the Philippines that was able to launch a successful international conference at the height of COVID-19 pandemic in December 2020 and at the height of resurgence of COVID-19 cases in January 2022, complete with conference protocols, multimodal conference materials and kits, quality assurance processes, ISSN registered conference proceedings and international audience. Governometrics is also the first to introduce a conference ID and animated conference skin as well as the very first animated or motion certificate - denoting its mastery for digital application of technology for any situation, event or use.

Truly, Governometrics is always on top of the situation. It is so to provide necessary intervention and support to its clients and supported communities.

Part of the transition of Governometrics to its 2nd year of operations is the launch of its core business services for the medium term. Thus, we are knocking at the doors of your office once again to relay this good news and coordinate our service offerings with forthcoming launch in the 1st quarter (Q1) of 2022.

We present the 1st People and Organizational Well being for Empowering Realities (POWER) as part of the quarterly roll out of the global development agenda of Governometrics that the latter formulated with the participants of the 2nd A.T.O.M.I.C. in January 2022. For its first launch year, P.O.W.E.R. tackles different dimensions and facets of well being that affect individuals, organizations and systems in more (visible or invisible) ways than one. This is a good venue for content updating, finetuning of strategy or organizational plans and programs, paper presentation, and executive and managerial leadership on POWER themes as there are various activities in and for which participants can make and produce relevant engagements and outputs, respectively. For DepEd schools, POWER is a good venue to host INSET as well as to validate advancement, ingrainment and integration of knowhow of participants on what had been previously learned vis-a-vis the scope and standards of Governometrics for POWER as a global development thrust.

Let's gain POWER altogether in March 2022!

Governometrics is also guaranteeing its authority on the knowledge base of POWER as the latter's formulator. Thus, Governometrics is in the best position to certify participation and outputs of participants and what else may be requested of and from it by clients. As a proof to its claims on knowledge base, Governometrics is launching the very first issue of its internationally peer reviewed scientific and praxis journal for thought leadership and futures thinking, LEA.EDGE.. Some elements of the knowledge base of Governometrics are

published in three different sections of LEAD.EDGE.. Governometrics is scheduled to publish its background study between 2022 and 2023.

LEAD.EDGE. is a scientific and practical reader by your side and for library and executive use.

Subject to quality assurance procedures of Governometrics, papers successfully presented in POWER may land publication opportunities in the second issue of LEAD.EDGE. for 2022. As Governometrics has its own knowledge base and quality assurance procedures, authorship in LEAD.EDGE. is already its global certification for passing its imposed quality assurance standard for the international publication of a cross disciplinary research. Governometrics shall announce journal service upgrades in the 4th quarter of 2022.

More importantly, any office with a desire to align their research activities and institutional development plans along the general theme and advocacy campaign of Governometrics - social transformation, social justice and accountability for thought leadership and futures thinking on Human Significance for 2022-2090, has an option open to forge out institutional partnership for all its quarterly Philippine ATOMIC conference (QPACT) and for its annual scientific and praxis global event called Advancements and Top of Mind International Conference (ATOMIC).

After guaranteeing the success of ATOMIC and the formula applied to realize the same, starting in March 2022, any office with a desire to support the research scholarship, employment externship, or educational program internship of their staff and students for advocacy, research and executive leadership via planning, program development and publications and research strategy formulation could apply institutional partnership with Governometrics. Subject to scope of activities and required interventions, institutional partners will land a slot in the Philippine Chapter of the Governometrics Global Scientific Committee or LEAD.EDGE. Editorial Board. The program encompassing these aims is called Governometrics Development Cooperation Project. Institutional partnership from any sector is open for Global Scientific and Development Advocacy.

We are also campaigning in advance for the inaugural launch of the Invitational, which will finally realize the offering of the Humanity Solutions to the basic education sector in March 2022. Your office could join the Invitational for the purpose of using Humanity solutions to generate evidence for your decision making or as audit material that will provide comparative information on situation, intervention and any other performance related undertaking.

The Humanity solutions is the biggest contribution of Governometrics to policy development, executive leadership, management and organizational as well as systems theory and praxis, education and learning theory, as well as development theory and models. Humanity solutions is a clear reexamination and integrated response of Governometrics to all the individual and intersecting theories and models of various fields of study and practice; neatly put together in the offered service product collectively called Performance Management System that Governometrics developed for its clients.

LEAD.EDGE. and The Invitational for Humanity Solutions are service products of Governometrics for the service line called Power Asset Exchange (PAX). PAX and its FB site shall be inaugurated soon.

With the kind indulgence of your office, please find below the newsletter containing the poster details for P.O.W.E.R. and LEAD.EDGE.. We shall also issue your office the business prospectus for the Governometrics Global Agenda for Scientific and Advocacy Programs and for the Invitational campaign for the basic education sector by 1st week of March 2022.

Governometrics is a developmental business that is advocating Human Significance for 2022-2090, in light of its Humanity framework. We hope that Filipinos will rally behind its cause.

Thank you.

len

DR. LIBERTY I. NOLASCO

We're Significant. Together. - Governometrics

WHY JOIN QPACT TO GROW POWER?

P.O.W.E.R. traces its history from the 1st Mental Health Leadership and Strategic Governance Congress successfully launched by Governorries in March 2021. Governorries developed P.O.W.E.R. as its own field for capability enlargement that includes mental health but goes beyond the latter to encompass broad and critical issues of well being besetting individuals, organizations, or social institutions. Attending POWER benefits participants and their immediate beneficiaries as follows:

Academics, Educators, Scholars

- Content updating & capability enlargement
- Specialized venue for POWER themes
- External party certification
- Paper presentation & mentorship
- Publication opportunities
- Engagement in public discourse

Executives, Managers, Decision Makers

- Content updating & capability enlargement
- Technical advisory services
- Guided policy review and reformulation
- Thought leadership; HR & LMD coaching
- Sponsorship and networking

Specialist & Generalist Office Personnel

- Content updating & capability enlargement
- Practical hands on sessions on select topics
- Calibration of office practices and tools
- Broadening of application of knowhow
- Enhance confidence and knowhow

Civil Servants & Advocacy Workers

- Content updating & capability enlargement
- New policy and program inputs
- Delivery of position papers & case reports
- Advancing advocacy and sectoral interests
- Publication opportunities
- Engagement in public discourse

Students and Learned Individuals

- Content updating & capability enlargement
- Validation of classroom inputs/theories
- Input of experiential insights
- Advancing advocacy and sectoral interests
- Publication opportunities

Best Served Audience

- Decision makers, executives, strategists
- HR, People, LMD, Marketing leaders
- Education directors and leaders; teachers
- Care professions (nurses, counselors, etc.)
- Trainers, peer counselors, working parents

- Join, discourse, input, present, publish, write ideas, apply
- Obtain capability building services from the program developer
- Be certified for attendance, participation or program output
- Get individual/institutional accreditation for scientific committee membership/partnership for POWER, Philippine or Overseas Chapter

PAPER SUBMISSION GUIDELINES

Submit works for P.O.W.E.R. in accepted genres as shown below. Clarify your goal for submission. Are you interested to develop your idea? Improve your plan? Identify technical gaps to reformulate strategies? Present a scholarly work? Vie for publication in the scientific and praxis journal of Governometrics called Lead.Edge. for its second issue? Submit works for publication somewhere? Or narrate your experience or uphold a sectoral interest? See the simplified writing guidelines below. Papers vying for publication with Governometrics will undergo screening process. Meritorious papers will receive special distinction for the Awards Day scheduled in December 2022.

Traditional Research (20 pages)

Name, work designation, office of author/s
 Abstract with title and keywords (150 words)
 Introduction (rationale, inquiry, significance)
 Methodology (framework, design, methods)
 Observations and Analysis
 Findings (or Conclusion) & Recommendation

Non Traditional Research (12-20 pages)

Name, work designation, office of author/s
 Abstract with title and keywords (150 words)
 Introduction (rationale, inquiry, significance)
 Exposition
 Findings, Insighting, Areas of Improvement
 Between 3,000 and 6,000 words

Concept Paper (5-8 pages)

Name, work designation, office of author/s
 Content updating & capability enlargement
 Validation of classroom inputs/theories
 Input of experiential insights
 Advancing advocacy and sectoral interests
 Publication opportunities

Position Paper (12-30 pages)

Name, work designation, office of author/s
 1 full page executive summary
 Introduction and situational analysis
 Technical considerations
 Empirical evidence per advocacy point
 Conclusion & Proposed Intervention

Case/Narrative Reports (12-20 pages)

Name, work designation, office of author/s
 1 full page (case) summary
 Introduction and situational analysis
 Report methodology/data collection method
 General and specific cases/narration of events
 General findings and recommendation

Strategy/Program Paper (20-30 pages)

Name, work designation, office of author/s
 1 full page (case) summary
 Organization context and goal
 Situational contexts and prognosis
 Strategic/program paradigm and content
 Projected results, outcomes and limitations

The first issue of LEAD.EDGE is coming out soon!

Prepare for additional breakthrough in 2022.....

INAUGURAL ISSUE

LEAD. EDGE.

THOUGHT LEADERSHIP & FUTURES THINKING JOURNAL

Human Empowerment Overdrive in 2021:
Maximizing the Gains from 2020

Volume 1, Issue 1
October-December 2021

GOVERNOMETRICS MANAGEMENT CONSULTANCY SERVICES

ABOUT THE JOURNAL

LEAD.EDGE is an international peer-reviewed scientific and praxis journal designed to foster thought leadership and futures thinking among decision makers and executives, managers and leaders, academics and educators, civil servants and development workers, researchers and intellectuals, industry practitioners, scholars and students, and any learned individual thru the dissemination of original scientific works, breakthrough research findings, novel experiential insights, critical seminal works, bold advocacy papers, emergent praxis, and authoritative technical advisory from any field of study or practice.

LEAD.EDGE contains four major content sections. One section called THINK TANK is dedicated to technical advisory for decision makers, executives, managers, leaders, civil servants, development workers, scholars and at least graduate students. THINK TANK is composed of theoretical work (Founder's Special Technical Advisory and Think Pieces or F-STAT) and guidance materials from invited field specialists. The inaugural subsection for the latter is a legal advisory called Legal Guidance for Institutions and Teachers or LEGIT.

The two other sections are intended for specialist readers and graduate students. Comprising these sections are extended abstracts for advocacy and full-length video recorded presentation of invited resource persons called Reader's Empowerment Advocacy Paper or REAP and Video recorded Incipient Praxes or VIP, respectively.

All materials submitted for THINK TANK, REAP, and VIP are reviewed, revised, and presented in at least two forums prior to their publication.

The section called Blind-Referenced Academic and Novelty Discussions or BRAND is intended for educators, researchers, scholars, practitioners, and students. BRAND contains solicited and submitted manuscripts that underwent rigorous quality assurance processes. Quality assurance for LEAD.EDGE serves the purposes of scholarship and discerning standard but is for consideration as well by institutions examining these manuscripts for the employment, promotion, scholarship application or prospective research, employment or professional distinction of the authors.

All BRAND manuscripts went through the processes of preliminary screening, two-tiered technical reviews (blind and open refereeing), and presentation in international conferences before being considered for post-conference screening, double-blind refereeing processes, revision, public presentation, and publication for LEAD.EDGE.

LEAD.EDGE is the official annual journal publication of Governometrics Management Consultancy Services or Governometrics, the first exponent of cross-disciplinary research in the Philippines and the global service provider of thought leadership and futures thinking program carried out via the platform of Advancements and Top of Mind International Conference or A.T.O.M.I.C.. The latter has tested and proven reliability for being among the few international conferences successfully organized in the Philippines and inaugurated globally at the height of COVID-19 pandemic in December 2020 but equipped with quality assurance system, mentorship program, three types of presentation forums and ISSN-registered conference proceedings.
