### Advanced Baseline Research and Impact Analysis In-depth Training Workshop (Davao City) from July 3 to 7, 2023

Are your organization's programs, policies, and projects effective and impactful to your stakeholders? Whether you are an academic institution or a private or public organization, you need to do a baseline research and impact assessment of your policies, projects, and projects.

Baseline research and impact assessment are crucial tools for organizations seeking to measure performance and make informed decisions. Here are some of the major benefits of these processes:

- 1 Provides a Starting Point: Baseline research provides a starting point for an organization to assess its current state and measure progress over time. It establishes a benchmark for future comparison and helps to identify areas where improvements are needed.
- 2 Identifies Gaps and Opportunities: Through baseline research, an organization can identify gaps in its performance, such as inefficient processes or areas where resources are being wasted. It can also identify opportunities for growth and development, such as new markets or potential partnerships.
- 3 Helps to Set Realistic Goals: Impact assessment helps an organization to set realistic and achievable goals. By analyzing the impact of previous initiatives, an organization can identify what works and what doesn't and set realistic and attainable goals.
- 4 Enables Informed Decision Making: By collecting and analyzing data through baseline research and impact assessment, an organization can make informed decisions about allocating resources and prioritizing initiatives. This leads to more effective use of resources and improved outcomes.
- 5 Demonstrates Accountability: Impact assessment demonstrates an organization's accountability to stakeholders, including customers, investors, and the broader community. An organization can demonstrate its commitment to responsible business practices and transparency by tracking and reporting on its impact.

Hence, we invite you to a face-to-face workshop in Advanced Baseline Research and Impact Analysis In-depth Training Workshop (Davao City) from July 3 to 7, 2023 (8:30 AM to 4:00 PM) - PHP9000.00.

The registration fee (PHP9000.00) is inclusive of digital and physical handouts, 12% VAT, datasets, installers of the freeware and open source (that you will use during the workshop), digital (and physical copies of) certificates (of participation, completion, and attendance), AM/PM snacks, lunch, and the learning experience. STRATONE is now a Vat company. Participants must bring their laptops during the workshop.

Softwares that you will need in this workshop: Spreadsheet (MS Excel or Numbers), JASP, and JAMOVI. Note that these tools are FREE.

Venue: Brokenshire Hotel-Resort Convention Center, Brokenshire Heights, Madapo, Davao City

To register: <https://forms.gle/7j55Yj2tyFFAUiLv6>

Participating agencies from 2021 to 2022: <https://drive.google.com/file/d/1Jw8dGfT8tSRNKDzgHFBAMM-n6cz7avh/view?usp=sharing>

Payment Details: <https://forms.gle/HuuJj8Vvk2cDyoyzM9>

COURSE SYLLABUS: JUST REPLY TO THIS EMAIL

Recommended for:

1. Market researchers and analysts in marketing, advertising, and consumer research.

2. Social scientists in sociology, anthropology, psychology, and political science.
3. Public health researchers and practitioners.
4. Scientists and researchers in biology, medicine, and environmental science.
5. Business analysts and managers in finance, economics, and management.
6. Data scientists and analysts in computer science, statistics, and mathematics.
7. Researchers and analysts in government agencies and non-profit organizations.
8. Educators and instructional designers
9. Engineers in fields such as civil, mechanical, and electrical engineering
10. Quality control and process improvement professionals in the manufacturing and production industry

These are our recommendations; the workshops may benefit anyone interested in understanding and using research and data analysis methods in their field.

Regards,

STRAT One
