INVITATION TO DAVAO CITY FACE-TO-FACE WORKSHOP ON RESEARCH AND DATA ANALYSIS

If we made online workshops effective, we could do the same with face-to-face seminars. We surveyed the participants who attended our online workshops and training, and 98.5% of them said that they could use in the workplace or throughout their career the knowledge and skills they accumulated from attending our workshops.

Hence, we are glad to inform you that we will be conducting a series of face-to-face workshops in Davao City:

1. Advanced Baseline Research and Impact Analysis In-depth Training Workshop |July 3 to 7, 2023 | PHP9000.00|
2. Advanced Statistical Analysis using JAMOVI and JASP Training Workshop |July 12 to 14, 2023 | PHP7500.00|
3. Advanced Qualitative Methods, Design, and Analysis using Orange for Data Science In-depth Training workshop | July 17 to 21, 2023 | PHP9000.00|

The registration fee is inclusive of digital and physical handouts, 12% VAT, datasets, installers of the freeware and open source (that you will use during the workshop), digital (and physical copies of) certificates (of participation, completion, and attendance), AM/PM snacks, lunch and the learning experience. STRATONE is now a Vat company. Participants must bring their laptop during the workshop.

This is a live-out workshop. Hence, we are encouraging participants to book their hotel directly with Brokenshire Hotel-Resort Convention Center. We also recommend the use of Agoda and Booking.com for budget-friendly accommodation.

Venue: Brokenshire Hotel-Resort Convention Center, Brokenshire Heights, Madapo, Davao City

To register: <https://forms.gle/7j55Yj2tyFFAUitv0>

Participating agencies from 2021 to 2022: <https://drive.google.com/file/d/1Jw8dGt8tSRNKD2gHFBAMM-nbcz7avn/view?usp=sharing>

Payment Details: <https://forms.gle/HuujJBVK2cDyoyzMQ9>

Recommended for:

1. Market researchers and analysts in marketing, advertising, and consumer research.
2. Social scientists in sociology, anthropology, psychology, and political science.
3. Public health researchers and practitioners.
4. Scientists and researchers in biology, medicine, and environmental science.
5. Business analysts and managers in finance, economics, and management.
6. Data scientists and analysts in computer science, statistics, and mathematics.
7. Researchers and analysts in government agencies and non-profit organizations.
8. Educators and instructional designers
9. Engineers in fields such as civil, mechanical, and electrical engineering
10. Quality control and process improvement professionals in the manufacturing and production industry

These are our recommendations; the workshops may benefit anyone interested in understanding and using research and data analysis methods in their field.

Regards,
