**HON. SALUSTIANO T. JIMENEZ**  
Region VII Director  
Department of Education

Dear Hon. Jimenez:

Greetings!

The **University of the Philippines Association of Civil Engineering Students (UP ACES)** is a non-stock and non-profit student organization of the UP Institute of Civil Engineering. We are an organization that advocates and upholds academic excellence, community service, and professional and holistic growth of its members. Moreover, we continue to strive and leave an impact on the community through hosting talks, seminars, and competitions related to the civil engineering field.

This 2023, the **19th National Civil Engineering Summit (NCES)** with the theme **Foundations Reinforced: Diversifying the Horizons of Engineering** aims to highlight the role civil engineering plays within and outside its own boundaries. The summit which caters to thousands of Civil Engineering aspirants, high school students, faculty members, and professionals all over the country in a **face-to-face set-up** will consist of a series of events including the **Jumpstart, National Civil Engineering Quiz, Bridge Building Competition, Civil Engineering Career Fair, Civil Engineering Lab Tour, Civil Engineering Exhibit, and the National Civil Engineering Symposium**.

One of this summit's events, the **Bridge Building Competition**, will be open to high school students. This competition allows students to gain a new perspective in Civil Engineering through constructing strong, economical, and aesthetically-pleasing bridges in a time-pressured environment.

With this, we would like to **request an advisory from your region for our event, Bridge Building Competition**. We strongly believe that an advisory from your office will help us promote NCES more to high school students. The event will be a great opportunity for the students to realize the importance of the civil engineering field in nation-building by strengthening relationships with other sectors of society. The students' participation in this event will impart a huge impact on high school students, especially those who aspire to become civil engineers in the future.

*Adviser*  
UP Association of Civil Engineering Students

**DR. JOSE REGIN REGIDOR**  
*Director*  
UP Institute of Civil Engineering

University of the Philippines  
OFFICE OF THE PRESIDENT

**MESSAGE FROM THE PRESIDENT**

The University of the Philippines endorses the National Civil Engineering Summit 2023 organized by the UP Association of Civil Engineering Students (UP ACES), and which will be taking place on September 27, 2023 to September 30, 2023.

The National Civil Engineering Summit 2023 is a series of events including the jumpstart, National Civil Engineering Quiz, Bridge Building Competition, Civil Engineering Career Fair, Civil Engineering Lab Tour, Civil Engineering Exhibit and the National Civil Engineering Symposium. With the theme Foundations Reinforced: Diversifying the Horizons of Engineering, this summit aims to highlight the role that civil engineering plays within and outside its own boundaries. As we continue to achieve more and expand outward, this year's NCEs emphasizes the importance of the civil engineering field in nation-building by strengthening relationships with other sectors of society. It would also be a great avenue for all aspiring civil engineers and professionals to discover Civil Engineering's boundless potential, not just in fulfilling today's demands, but most importantly, in reinforcing a stronger foundation for the future.

We encourage the public and the institute to be part of this event to be held in a physical setup.

For inquiries, you may contact Sophia Margot B. Laquip, NCEs 2023 Externals Head, at 0916 662 4914 or at [externals.nces@gmail.com](mailto:externals.nces@gmail.com).

  
**ANGELO A. JIMENEZ**  
President
