DIVISION MEMORANDUM  
No. 611 , s. 2024

September 04, 2024

**University of the Philippines Civil Engineering Society (UPCES) Colloquia 2024**

To: Chief, CID and SGOD  
Secondary School Principals of TCSHS and DCPNHS (SHS)  
STEM Strand SHS

1. Attached is a letter from **COLLOQUIA 2024 Team** inviting Senior High School Students for the **University of the Philippines Civil Engineering Society (UPCES) Colloquia 2024**, with the theme: *"Redefining Possibilities: Exploring the Scale of Materials Engineering Towards Sustainability and Innovative Development"*.

2. For details please see attached communication for the link on the event primer.

3. For information and widest dissemination.

## REDEFINING POSSIBILITIES:

EXPLORING THE SCALES OF MATERIALS ENGINEERING TOWARDS  
SUSTAINABILITY AND INNOVATIVE DEVELOPMENT

**August 29, 2024**

**Dear Sir/Ma'am:**

**Greetings!**

We, the **University of the Philippines Civil Engineering Society (UPCES)** is a duly recognized and the pioneering civil engineering academic organization of the **University of the Philippines Los Baños**. The organization is composed of active civil engineering students committed to embodying the philosophy inspired by UP traditions – honor, service, and academic excellence dedicated to promoting unity among engineering students through various scholastic and extra-curricular activities. The organization has been recognized for its numerous honor graduates, board exam topnotchers, and world-class engineers. Since its inception in 1993, UPCES has continuously embodied its motto, "**Aiming high with noble and mighty goals,**" with its members standing at the forefront of engineering developments and establishing names all over the world. This year, we will carry on with our pursuit of noble goals and academic excellence while fostering camaraderie among our members and fellow students.

This coming **26<sup>th</sup> and 27<sup>th</sup> of October 2024**, we are thrilled to hold Colloquia, an **online webinar series** with the theme "**Redefining Possibilities: Exploring the Scale of Materials Engineering Towards Sustainability and Innovative Development**" which aims to bridge the gap between theoretical study, practical application, and one's adaptability amidst the problems we're facing in the field of civil engineering. ## REDEFINING POSSIBILITIES:

EXPLORING THE SCALES OF MATERIALS ENGINEERING TOWARDS  
SUSTAINABILITY AND INNOVATIVE DEVELOPMENT

intends to impart knowledge and insights on different developments,  
especially on the subject of **Materials Engineering**.

In line with this, we would like to invite you to be one of our  
participants in **Colloquia 2024**. Attached are the details of  
registration and the key information about the event. For inquiries, do  
not hesitate to get in touch with the following contact person below.  
Thank you very much and we look forward to your participation!

Best Regards,
