Dear Partners,

Lasallian greetings!

The Editorial Board of the Sinaya Journal is pleased to invite you to a one-day intensive workshop focused on integrating AI tools into research mentoring. This workshop is designed to equip research mentors with practical strategies and tools that enhance every stage of the research process. Specifically, it aims to:

1. Introduce foundational AI tools and practices that streamline and support the mentoring process from topic ideation to research planning.
2. Guide participants in developing preliminary group research plans using AI-assisted methods that encourage interdisciplinary thinking and collaboration.
3. Provide hands-on activities that showcase how AI technologies can help generate, synthesize, and refine research topics. These activities will enhance mentor decision-making and improve student guidance.

Below are the details on how you can join us, gain practical strategies, collaborate with fellow mentors, and explore how AI can enhance your research mentoring processes.

- **Title:** AI-Assisted Research Mentoring Workshop
