Region 7

Dear SIR:

Warm greetings from the Guild of Educators in TESOL International (GET International)!

We are pleased to invite faculty, senior high school students and staff to our **International Research Conference** with the theme **"Forecasting the Future through Research: Environmental, Economic, and Educational Innovations,"** on **November 14, 2025 (Friday), 8:00 a.m.–12:00 p.m. via Google Meet.**

This global event will feature distinguished speakers from Vietnam and Indonesia presenting innovative studies on AI-driven CO₂ forecasting, corporate social responsibility, AR-based disaster preparedness learning, and sentiment-based labor market analysis. It is an excellent opportunity to gain international insights and strengthen research engagement.

We hope to see you there!

Best regards,

DAISY MAE R. BONGTIWON

Subject: *Invitation to Participate in the International Research Conference on “Forecasting the Future through Research: Environmental, Economic, and Educational Innovations”*

Dear SIR:

Warm greetings from the **Guild of Educators in TESOL International (GET International)**!

We are pleased to invite, faculty, senior high school students and staff to participate in our upcoming **International Research Conference** with the theme, **“Forecasting the Future through Research: Environmental, Economic, and Educational Innovations,”** which will be held on **November 14, 2025 (Friday), from 8:00 a.m. to 12:00 p.m. via Google Meet.**

This international gathering aims to highlight the role of **research as a powerful tool for foresight and innovation** in addressing global challenges across environmental, economic, and educational sectors. The theme underscores the need to use data-driven research, sustainability frameworks, and educational reforms to **forecast future trends and propose strategic responses** that advance inclusive development.

Distinguished speakers from Vietnam and Indonesia will share their groundbreaking studies on corporate social responsibility, CO₂ forecasting using artificial intelligence, AR-based learning modules for disaster preparedness, and labor market analysis through sentiment-based forecasting. This conference provides an excellent opportunity for scholars, educators, and students to expand their global perspectives and strengthen their research engagement.
