## GAIN Masterclass 14 Published on the DepEd Website!

The Department of Education (DepEd) has officially published GAIN Masterclass 14, a groundbreaking learning event organized by the Government-Academe-Industry Network (GAIN), Inc., with the theme **“AI in Research for Government, Academe, and Industry.”**

This masterclass brings together global experts and local leaders to explore how Artificial Intelligence (AI) is revolutionizing the research process—from sourcing and systematic reviews to health science analysis, thematic interpretation, and publication. Participants will gain practical insights on how AI can make research faster, smarter, and more impactful across education, policy, and innovation.

In a data-driven world, research is no longer confined to scholars—it powers decision-making across industries and institutions. GAIN Masterclass 14 empowers professionals from government, academe, and industry to harness AI for evidence-based strategies, efficient knowledge generation, and real-world problem-solving.

Through topics such as AI-powered systematic reviews, machine learning in health research, and agentic AI for deep research, this event equips participants with tools to lead confidently in the era of intelligent innovation.

GAIN Masterclass 14 is more than a learning session—it’s an opportunity to future-proof your research and collaborate across sectors to create smarter, data-informed solutions for the country and beyond.

Be Part of This Future-Ready Learning Experience!

 **Date:** November 14, 2025

 **Time:** 1:00–5:00 PM (PHT)

 **Venue:** Online via Zoom
