**SPECIAL SCIENCE AND MICROCOMPUTER DEVELOPMENT PROGRAM
THRU: PREHAND COMPUTER EDUCATIONAL DEVELOPMENT PROGRAM**

Purok 2, Ilijan Norte, Tubigon, Bohol

City Division Superintendent
DepEd Bohol Province
Tagbilaran City, Bohol

Sir/Madam:

In the desire to help the students, particularly those who nurture special in the field of Science and Technology, the Prehand Computer Educational Development System Program has embarked on a kind of development project designed to provide broadened perspective between the students as well as their parents on matters regarding Science Technology. The program called the Prehand Computer Educational Development System Program, aims to link the home and the School together to enable them to appropriately respond to the special needs of parents and understanding the learning process of their children.

To promote and develop Science and Computer consciousness in the youth, the program offers to help them secure Science and Technology reference materials and advance computer training study. This will enhance in each students the basic know how in science and the degree of computer literary relevant to globalization. While the program aims to help every students attain proficiency in their academic pursuit, it may also reduce the financial burdens of parents who have to cope up with high cost of education particularly on prices of books and tuition fees.

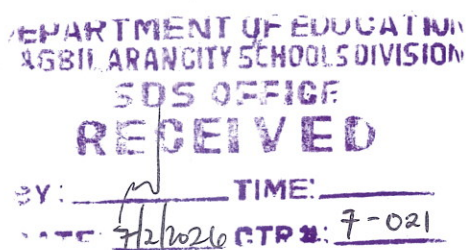

Under the scheme, quizzes shall be administered to alt secondary students in both private and public schools within the division. Those who will hurdle the test will be given a special privilege to avail of some academic books as well as computer reference materials. Here, the participation of the parents is only the miscellaneous expenses in transporting these from the point of its origin to the residents of the recipient.

Likewise, the students will be given HANDS-ON ADVANCE COMPUTER TRAINING at your school being the proposed venue of the said training.

In connection with our outreach privilege program, we are requesting permission to conduct free examination for public and private high school students only in the Region VII and neighboring municipalities of the region. The students will undergo a series of actual advance computer literacy program in Visual and Digital Artistry, which will be held every Saturday and Sunday in our specified official venue.

The program is very essential but voluntary and is NOT COMPULSORY on the part of the parents concern.

The universal fact stands that the more we learn the greater is our chances for success. Please us to thank you on anticipation to your favorable consideration hereon.

Very respectfully yours,

MR. ELVIEN C. PAMISA
Prehand Computer Representative
