DATE : **19 October 2026**

1. **Rationale**.

   1.1. Recent initiatives by the Department of Education (DepEd), the Department of Information and Communications Technology (DICT), and other partners have expanded internet connectivity in public schools, including through low Earth orbit (LEO) satellite internet services.

   1.2.    1.4. All interested public schools, regardless of their internet service provider or source of connectivity, are invited to participate in the Khan Program, subject to readiness validation and the minimum requirements of at least 40 operational computer devices and an internet download speed of at least 100 Mb/s.

2.1. *Review Eligibility Requirements.* Interested schools must have at least 40 operational computer devices and an internet connection with a download speed of at least 100 Mb/s to support Khan Academy implementation.

2.2. *Coordinate with the Rapid School Validation Team (RVAT).* Concerned School Heads will receive an official email from an RVAT repres entative regarding the validation of school readiness and eligibility for participation in the program.

2.3. *Submit an Expression of Interest (EOI).* Eligible and interested schools must complete the online EOI form provided in the RVAT email. Schools that have not received the email may use the contact details in paragraph 4 for assistance in accessing the form and participating in the validation process.

3. **Reference List of LEO-Equipped Schools**

3.1. A reference list of schools connected through low Earth orbit (LEO) satellite internet services, such as Starlink, is available at **tinyurl.com/KhanEligibleSchools2026**.

3.2. Other interested public schools, regardless of their internet service provider or source of connectivity, are likewise invited to participate, subject to the same eligibility requirements and readiness validation.

4. For concerns in relation to the subject matter, please contact Mr. Eric John Tobias via MS Teams chat or email at rapid.validation@deped.gov.ph.
